

EXECUTIVE SUMMARY

As a skilled full-stack web developer proficient in React, Next.js, Node.js, MongoDB, and Firebase, I'm ready to take on challenging roles in esteemed organizations. With expertise in frontend and backend development, along with database management skills, I'm poised to drive growth and innovation. My internship at NullClass has further refined my abilities, and I'm eager to contribute to forward-thinking companies while staying updated with emerging trends in the IT sector.

PROFESSIONAL SKILLS AND INTERESTS

- Expertise in React Js and Next Js
- Expertise in Node Js and Express Js
- Expertise in MongoDB and Firebase
- CSS3, MUI and Tailwind CSS
- Beginner in React Native
- Familiar with Redux and REST API

EDUCATION

BE (Computer Engineering): KK Wagh College of Engineering Education and Research, Nashik.

- 3rd year SGPA: 9.7/10
- Actively participated in College Events.

HSC: Vidya Pratishthan's Arts, Science and Commerce College, Vidyanagari, Baramati (Pune).

- HSC Score: 90.91 %
- CET Score: 94.33 percentile

PROFESSIONAL SKILLS DEMONSTRATED

NullClass

Feb 2023 – April 2023

- **MERN Stack Development:** As a Full Stack Developer at NullClass, I spearheaded projects using the MERN stack, ensuring seamless integration of front-end and back-end technologies to deliver scalable and secure applications.
- **Data Flow Optimization:** Ensured efficient data flow between client and server components.
- **Version Control:** Proficient in using Git for version control and managing code repositories on GitHub. Capable of managing branches, merging changes, and resolving conflicts.

Logic Systems

Dec 2023 – Feb 2024

- **Full-Stack Development (Next js and Firebase):** At Logic Systems, I led projects utilizing Next.js and Firebase, driving the development of a comprehensive Hostel Management System. I emphasized user-friendly features to enhance the overall experience.
- **Communication Skills:** Able to communicate effectively and in a way that others can grasp. Use relevant knowledge and skills to explain and clarify thoughts and ideas and also listen to others carefully and pay attention to their thoughts and views.

- **Teamwork and Leadership skills:** Collaborated closely with 4 to 5 team members to swiftly address challenges, showcasing strong teamwork. Additionally, led a team of 4, adeptly assigning tasks and conducting feedback sessions.

DEVELOPMENT PROJECTS

Hostel Management Project – Freelance Developer: Developed a hostel management system using Next.js and Firebase, utilizing hooks for UI development. Implemented features for generating insightful expense reports (daily, monthly, yearly) and efficiently managing resident records, including live, departed, and outstanding payment statuses.

Git Repo: <https://github.com/saurabhraut1212/hostel-management-app>

Fuel Station Project – Backend Developer: Created a Fuel Station Management web application using the MERN stack, aimed at optimizing operations. Features include real-time fuel tracking, pricing management, and seamless payment processing. Integrated an online delivery feature for enhanced customer convenience.

Git Repo: <https://github.com/saurabhraut1212/fuel-station>

Memories Project -Full-Stack Developer: Built a full-stack project using the MERN stack, allowing users to upload, update, and like memories. Key features include image uploading, memory editing, and a user-friendly interface for enhanced engagement.

Git Repo: <https://github.com/saurabhraut1212/Memories>

STUDENT LIFE & VOLUNTEERISM

Cultural Events – Management: Managed cultural events in school and college with a team. Paid attention towards time management and money management.

Competitive-Exams: Participated in many competitive exams related to curriculum and extra curriculum activities.
